

# TONOPAH DAILY BONANZA

Published every evening, Sunday excepted, by the Tonopah Bonanza Printing Co., Incorporated.

MEMBER ASSOCIATED PRESS MEMBER NEVADA PRESS ASSN

## W. W. BOOTH, EDITOR AND MANAGER

Terms of Subscription by Mail for Daily Bonanza:  
 One Year \$12.00 Three Months \$3.00  
 Nine Months \$9.00 One Month \$1.00  
 Six Months \$6.00 One Week .25  
 Delivered by Carrier, \$1.25 per Month.

Parties who do not receive their papers, or who have any change in their plans, will oblige The Bonanza by notifying this office.

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

All legal advertisements will be charged for at the rate of \$2.00 per square for the first insertion. There will be no exception to this rate. No affidavit of publication will be made until the advertisement is paid for.

No advertising cut one square inch or smaller, will be accepted unless made of metal. No wood base cuts this size will be used. Wood cuts are dangerous to forms and press.

Entered at the postoffice in Tonopah as second-class matter.

### THE GENTLE ART OF HUMAN VIVISECTION

HERE have been almost as many "successful" operations performed in this town as there are graves in the Tonopah cemetery; and what we say of Tonopah applies to other Nevada cities. The Bonanza will hereafter refrain from terming surgical experiments "successful" until time has proven them to be such, and we have decided to cease landing the surgeons who do the work unless it is really successful.

This is not a Christian Science paper by any means, but it is getting rather opposed to butchery for profit. If it were done as Wilhelm does it, for patriotic reasons, or Great Britain, for commercial prestige, or Italy, because it could not drive the bargain it proposed, or Belgium, because it was forced upon it, or France, for Belgium's reasons, or Japan, because Hon. Russia was fully forgiven, or Turkey, because it was sick, or the rest of the fool nations that do not know why they are at war, but they're there because they're there—then the Bonanza would give the does a seven column headline occasionally, but really they are getting to be regular village cutups, and the Bonanza is criticised for giving them prominence for their gory deeds.

### THE FLOOD OF GOLD

DESPITE the risks that are run of attacks by submarines, Great Britain is sending vast quantities of gold to the United States, and will be compelled to forward it in even larger amounts if it expects to continue to receive supplies from this country. Conditions are such abroad that a nation's I. O. U. is rightly considered a "scrap of paper." Not only England, but France, Russia and other allied countries must do the same or have their orders turned down. There will be a lot of reputation after the war and the United States need not think that the balance of trade in its favor will count for anything unless the balance is settled immediately in yellow coin. People have been wondering where all the gold that has been mined in the past thousand years or so has gone. It is in the oriental treasure boxes and they are being emptied at an alacrous rate. Even San Francisco, on the western rim of the continent, is receiving a portion of the flood of gold that is being propelled across the world. The Journal of Commerce tells the following interesting story of its arrival:

"San Francisco is today the custodian of more gold than it has been for any time in the last 25 years. In the vaults of the United States mint there reposes more than \$300,000,000 in bullion, while in the United States sub-treasury there is an additional \$125,000,000, which is the high water mark for the local branch of Uncle Sam's storehouse of wealth.

"And this is not to be all, for within the next 60 days there will be an additional \$20,000,000, which is being shipped from Sydney, Australia, and will be stored at the United States mint here. The great quantities of gold are being brought into the United States to pay the war debts of Great Britain which have been incurred in New York and is being handled through San Francisco because it is believed that it is safer to ship the great mass of wealth across the Pacific than the Atlantic ocean."

### HOLY WAR, BUT NOT WHOLLY

THE declaration of war by Italy against Turkey would in time of universal peace have been considered a momentous event in the history of the world, but it passes today like an idle rumor regarding a feminine fashion or the report of a veterinary doctors' convention.

As a matter of fact, Italy and Turkey were already at war, even if not actually engaged in hostilities. They were each aligned with the chief powers that were embattled and the declaration of hostilities was a mere form, something that was sadly lacking at the beginning of the great world catclysm, when formalities were dispensed with as though they had never existed. Now, however, Turkey and Italy are properly introduced as combatants. Their envoys have been called home and the kennels of the war dogs of the respective nations are tenantless. Perhaps Constantinople, at one time metropolis of the Christian world, will again be restored to the faith of its fathers, although perhaps not. At all events there will be a further injection of the "holy war" spirit into this unholy combat.

### GOSH, BUT GRACIE STRACHAN IS MAD

GOOD bye, Gracie; we're sorry to see you go, though from the N. E. A. you resigned some days ago. The pedagogues were raspy, some of them were even waspy, but we still are very sorry that you yumped the yob thus so. Perhaps the old maid teachers had some cause to rip your features, to curdle up your bile and crimp your hair. But you should have kept your temper, told those cuts to scoot and scamper, and have east your lot with Stella at the fair.

### CLIPPED AND CREDITED

It is also a good idea to pay as you stay.—Detroit Free Press. Carranza can now tell it to the marines.—Philadelphia Inquirer. While French deputies make speeches German armies capture cities.—Portland Oregonian.

Germany keeps right on capturing those unpronounceable Russian names.—Baltimore Sun.

### THE NEW 3a KODAK, Anastigmatic and Autographic, \$27.50

Has the autographic feature whereby you can date and title your films at the time of exposure, is fitted with the new Kodak Anastigmat f.7.7 lens—a lens that leaves nothing to be desired in definition (sharpness) and flatness of field and has more speed than even the best of the Rapid Rectilinear lenses.

No. 3A Autographic Kodak pictures 3 1/2 x 5 1/2. Kodak Anastigmat lens f.7.7. \$27.50  
 Do. with rapid Rectilinear lens \$22.50

## OUR PUBLIC FORUM

### Otto Kahn On Financial Farm Loans

Every citizen who desires to become capable in business should study banking, and every farmer who wants to see the business of agriculture properly financed should study diligently the financial systems of other industries. All other lines of industry have developed financial facilities adapted to their needs. We have all sorts of financial syndicates authorized by law or custom to deal in a certain line of securities, but in none of these financial channels will farm securities travel without a bonus in the way of an excessive rate of interest or heavy discounts.

The most powerful financial institutions in America are private banks and they are the most important to the financial life of industry. In no line of business does honesty, efficiency and stability make more imperative demands than upon private bankers, whose greatest asset is the confidence of the buying public in his business judgment and integrity. Mr. Otto Kahn of Kuhn, Loeb & Company, when asked to state the relation of the private banker to the business of the nation, said in part:

"One of the most important functions of the private banker is to be the instrument for providing the money needed for the efficient conduct and development of railroads and other industries. He does this by buying securities in bulk from those needing capital, for which purpose he usually associates himself with a large number of other financial houses, great and small, thus forming what is called a syndicate. Having in this way concluded the buying transaction he offers to the public the securities purchased by means of advertising, circularizing and through the facilities of the retail houses included in the syndicate, many of whom employ traveling salesmen. Of course the banker and the syndicate count on a reasonable profit for their services, on the other hand they run the risk of the securities, which they have definitely bought and paid for at a fixed price, remaining on their hands wholly, or in part, if the public, for one reason or another, should be unwilling to buy them. The selling of securities is a highly specialized trade, requiring much experience, organization, machinery and scrutiny. This is one of the reasons why corporations do better in offering securities to the public through bankers than if they offered them direct. The willingness of the public to buy depends upon their confidence in the integrity and the judgment of the banker who makes the offer, and a banker who attempts to mislead the public, or who is deficient in care or judgment, would very soon find himself without customers and, therefore, out of business. In many European countries, the functions of the private banker include the placing of bonds secured by farm mortgages. Bonds of this nature are issued in large quantities by mortgage banks who buy mortgages on farms and other real estate and deposit them as security for their own bonds, which in their turn are sold to bankers. It is to be hoped that similar institutions will, in course of time, be created in America, thus placing the farming industry on a par with other important industries in facilities to obtain capital."

### POPULATION DECLINE HAS BEEN CHECKED

IRELAND SHOWS IMPROVEMENT  
IN PEOPLE, WITH MORE  
MARRIAGES

(By Associated Press.)  
 DUBLIN, Ireland, Aug. 24.—The report of the registrar-general of Ireland for 1914 shows that Ireland's decline in population has been arrested and also her prosperity increased if the number of marriages is a criterion. Last year shows a population of 4,381,398 against 4,379,012 the previous year, with the lowest emigration rate since 1851. Marriages gained 33 per cent over 1913. Improvement is noticed in the matter of illiteracy, which is rapidly dying out. The figures of husbands and wives who signed the register instead of making their give mark 94.6 for husbands and 96.4 for wives.

"As regards illegitimacy, Ireland compares favorably with most countries," says the report. There were only 3 per cent of illegitimate births.

In the whole country, Ulster showing the highest rate of any country at 4 per cent and Connaught the lowest at 1.7. The general birth rate shows a slight increase.

A drop of 8 per cent in the death rate is also noted, "old age" heading the list of causes with tuberculosis as second. Last year's death rate was 16.3 the thousand.

### RICH PLACER FROM OLD VEIN SYSTEM

PAMICO AND LA PANTA THREW  
GRAVEL THAT IS NOW YIELD-  
ING BIG RETURNS

S. H. Brady, formerly general manager of the Tonopah Belmont Development company and later occupying a similar position with the West End Consolidated Mining company, is one of the principal incorporators of the Pamlico Placer company, which has taken over 120 acres that contain the flow from the La Panta and Pamlico mines, which were big producers in the early days.

Mr. Brady, who is stopping at the Mizpah, states that the average depth to bedrock there is 128 feet. There is from 4 to 14 feet of gravel on the bedrock and the average returns are \$4 to the yard. The gravel is first passed over a 36-inch screen, after having been washed. A man is on duty watching the coarse gravel and one of the nuggets he stopped on the conveyor weighed 13 1/2 ounces. A number were found that weighed an ounce each. The gold is of excellent quality, being merchantable for \$17.50 an ounce.

The Pamlico mine is situated on a hill similar to Round Mountain. The vein strikes north and south and dips east. The formation of the hill is rhyolite and andesite and even the porphyry in the hill carries values.

The gravel in both the Pamlico and Neverseawat gulches comes through erosion of this hill, which is seamed with veins and veinlets. The Pamlico has a record of \$2,000,000 production and the La Panta produced about \$2,000,000. Little of the ore was milled on the ground, it nearly all being shipped as highgrade, and one forwarding is said to have run as high as \$14,000 to the sack, making almost a record for high grade shipments. The placer miners have sunk 128 feet and have drifted and crosscut for 309 feet, getting from their four by six headings an average return through crude methods of treatment of \$4 a ton.

DAVE ASPLAND, general agent for the Tonopah & Tidewater railway, left on the southbound train this morning for his home in San Francisco.

### Opens Assay Office

R. B. Kidd, the pioneer assayer of Tonopah, wishes to inform his old patrons and the public, that he has opened a custom assay office at the office of the Tonopah Midway Mining company; all work will be guaranteed, and he will make controls a specialty.

## Nevada First National Bank of Tonopah

Capital, \$100,000.00

### ANNOUNCEMENT

The following prices f. o. b. Detroit, effective August 1, 1915:

Ford Runabout	\$390.00
Ford Touring Car	440.00
Ford Town Car	540.00

No speedometer included in this year's equipment, otherwise cars fully equipped.

There can be no assurance given against an advance in these prices at any time. We guarantee, however, that there will be no reduction in these prices prior to August 1, 1916.

### Profit-Sharing with Retail Buyers

On August 1, 1914, we made the announcement that if we could make and sell at retail 300,000 Ford cars between Aug. 1, 1914, and Aug. 1, 1915, we would share profits with retail purchasers to the extent of from \$40 to \$60 on each car.

We have sold over 300,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay. Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date.

We are, however, confident of our inability to reduce costs for several months, and therefore can offer no profit-sharing for cars delivered during August, September and October, 1915.
